EDUCATION

Indian Institute of Technology Palakkad, *Bachelor of Technology*

11/2020 – 06/2024 | Palakkad, India

- Electrical Engineering, Cumulative GPA: 8.02 (till 7th semester)

PROFESSIONAL EXPERIENCE

Satcard| Software Developer Intern 📄

05/2023 – 07/2023 | Remote

- Demonstrated exceptional skills in frontend enhancements and backend optimizations during my tenure.
- Created WhatsApp notification and admin Dashboard Features.
- Developed a dynamic “Reports Page” to get a tabular format summary for all key parameters on the admin side, allowing for quick data analysis and reduced decision-making time.

Business Web Solutions| Full Stack Web Developer Intern 📄

01/2023 – 03/2023 | Remote

- Developed responsive webpages, integrated APIs, and resolved multiple bugs.
- Contributed to designing the shopping cart layout for the website.
- Played a key role in enhancing the web page’s responsiveness.

PROJECTS

Farmer Dashboard, *HTML, CSS, JS, Python, Django, MySql* 📄

09/2023 – 04/2024

- Developed a dashboard to provide farmers with real-time data about their crops and fields, offering valuable insights for better decision-making.
- Implemented efficient algorithms to display different crop stages, and integrated weather forecasts using a weather API to aid in agricultural planning.
- Designed and built 6 functional cards serving distinct purposes, including Google Maps integration, weather forecasting, and various graphs for parameters like temperature and pressure.
- Did backend optimizations to ensure efficient performance, reducing server load and improving response times.
- Conducted extensive research and collaborated with stakeholders to iterate and improve the dashboard, now deployed in an early stage with plans for future enhancements based on user feedback.

Portfolio, *React, Next.js, TypeScript, Tailwind CSS, Framer Motion, React Email* 📄

04/2024 – 05/2024

- Developed and launched a portfolio website using Next.js, TypeScript, Tailwind CSS, and Framer Motion, achieving a load time of under 1.5 seconds and a Lighthouse performance score of over 90.
- Integrated 6 sections - intro, about, projects, experience, contact, and skills, highlighting comprehensive abilities in frontend and backend technologies.
- Implemented a dynamic navigation bar that adjusts based on scroll position, improving navigation efficiency.
- Integrated 2 modes- dark and light, enhancing user experience and accessibility.

Grammar Checker by OpenAI API, *Python, PyQt6, OpenAI API* 📄

07/2023 – 08/2023

- Developed a grammar-checking application using PyQt6 and OpenAI API.
- Implemented a tab-based interface for efficient multitasking, allowing users to work on multiple grammar-checking sessions concurrently.
- Created an intuitive platform for users to enhance grammar and syntax in written content, saving an average of 15 minutes per session and boosting overall productivity.

SKILLS

Programming Languages (C++, Python)

Tools / Platforms (Git, GitHub, Visual Studio)

Core (OOPs, OS, DBMS, DSA)

Databases (SQL, MongoDB)

CP(Specialist at Codeforces 📄)

Web Development (HTML, CSS, JS, React, Express, Node, Django)

POSITIONS OF RESPONSIBILITY

Web Development Head

Core Team Member of the Web Development Team at IIT Palakkad

Group Incharge

Led a Team of 4 members in executing a lab Project(Non-Contact Wheel RPM Control and measurement system)

CERTIFICATES

- Introduction to C++ 📄
- Data Structures in C++ 📄
